

Certified Associate in Project Management

(CAPM)®

Certified Associate in Project Management (CAPM)®

The leading project management certification for students and professionals establishing a project management career.

Why get CAPM® certified?

CAPM® certification helps students and early-career professionals unlock opportunities and stand out in the job market:

- ✓ Demonstrates the industry and business knowledge to succeed in a wide range of project roles
- ✓ Enhances credibility and effectiveness working on — or with — project teams
- ✓ Recognizes knowledge of preeminent global standards and builds on your skillset to differentiate you to employers
- ✓ Shows a commitment to learning and professional development
- ✓ Helps gain experience and meet the education requirements to apply for the Project Management Professional (PMP)®.

The CAPM was exactly what I needed to get started. I was new to project management and didn't understand the language, the processes, the knowledge areas, it was the perfect foundation to my career.”

"Earning my CAPM took me from only being qualified for entry level positions into an actual career path; it was just what I needed to be considered for a senior level project management role at my organization.”
